

WEINKLING AUTOVITY PVT LTD

Intelligent intuitions

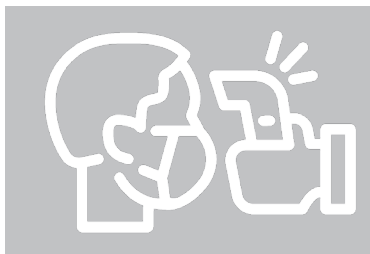

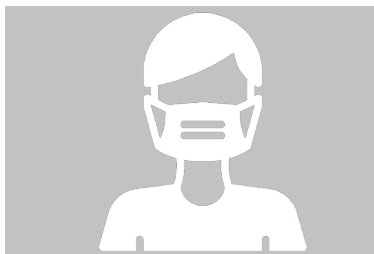

"Weinkling" - We are a team of young professionally qualified designers based out of Bangalore, India, working passionately on key turning ideas that keep "inkling" in our minds for better comfort and confidence of living. We strive to build and develop ideas into products to assist lifestyle with innovations that are more a necessity than a luxury.

Our team enjoys an enthusiastic, skilled and motivated environment to prototype and nurture, ideas into quality products which stand out uniquely and are yet highly adaptive in the current markets. Weinkling works in the technology areas of medical, defense, telecommunications, IoT, wireless, automation and intelligent & expert systems.

With our latest innovations and solutions we are happy to contribute to the society during this GLOBAL PANDEMIC and at the same time are actively contributing in the "Make in India" vision of Govt Of India. Our products abide by the universal standards and we assure to maintain & deliver sustainable quality to our customers. We ensure your comfort and safety by our "SMART PANDEMIC READY" products.

Pandemic Safety Automation

zero contact, maximum safety and user friendly devices
